

Ford Shop Tips magazine was a Ford technical service publication sent to mechanics at the dealership and in service stations and independent garages to help with the servicing of Ford vehicles. This technical information kept mechanics informed of new developments and factory recommended procedures as well as production changes on Ford cars.

Volume 1, Number 1

1. 1964 Ford Specifications
2. 1964 Fairlane Specifications
3. 1964 Falcon Specifications
4. 1964 Thunderbird Specifications
5. 1964 Econoline Specifications
6. Ford Truck 100-350 and P Series Specifications
7. Excessive Brake Pedal Travel-All Car Lines with Self-Adjusting Brakes
8. Automatic Choke Connector Hose Installation-All Eight Cylinder Engines
9. Hot Starting and Hot Idle Improvements 1963 Ford & Fairlane-8 cyl. (221/260)
10. Starter Solenoid Damage During Tune-Up All Car Lines
11. Hot Engine Idle Stall-1963 Ford Single Venturi Carburetor-144, 170, 223, 262 Engines
12. Inoperative Front Lamps-1963 Falcon
13. Front Suspension Alignment-1962-1963 Fairlane
14. Disposable (Spin-On) One Piece Type Oil Filter F-100-250 Trucks with 223-292 CID Engines
15. Turn Signal Lever Loose-All Car Lines
16. Two-Speed Wiper Motor Jammed in Park 1963 Falcon, Fairlane, Ranchero
17. Stop lamp Switch Terminal Corrosion All 1963 Car Lines
18. Hard Operating Key Cylinders-1963 All Models
19. Tire Air Pressure-1963 Falcon Sedans, Hardtops and Convertibles
20. Drag Link Ball Stud Dust Seal-1961-63 F-100-250 Trucks (including 4 x 4)

Volume 1, Number 2

1. Engine Oil Warning System-Vehicles Equipped with 427 C.I.D. Engines
2. Complete List of 1964 Power Options
3. Ford 427 High Performance Engine Specifications
4. Ford 427 High Performance Engine Service Parts
5. Miscellaneous High Performance Accessories
6. Lightweight Body Components
7. Generator Failure from Road Splash-1963 F-100-250-350 Trucks
8. Vinyl Trim Cleaning Materials
9. Steering Linkage Service Requirements on 1963 Thunderbird and Falcon
10. Disc Wheel Nut Loosening Ford 500 Through 800 Series Trucks
11. Revisions in Rear Axle Bolt Torque Specifications-1963 Vehicles
12. Exhaust System Clearance-1963 Falcon with V-8 Engine

13. Distributor Modification for Improved Low End Acceleration and Fuel Economy and Carburetor Modification for Improved Fuel Economy - 1963 Ford with 352 Engine and 2V Carburetor
14. Increased Engine Idle Speed – 1963 144-170 Passenger Car Engines with Automatic Transmissions
15. Hydraulic Tappet Noise-Diagnosis and Testing
16. New Cylinder Head Gasket, Head Bolt Washers and Head Bolt Specifications 1958-1963 401, 477, 534 Engines
17. Surging or Hesitation-1963 Econoline with 144 or 170 Engine
18. Clutch Snap Ring Failure-Fordomatic Two-Speed Transmissions
19. Clutch Snap Ring Failure 1961-1963 Cruise-O-Matic Transmissions
20. Carburetor Percolation or Excessive Pressure Build-Up in FuelLine-1954-62 Cars
21. Spark Plug Flashover During Compression Test on Spark Plug Testers
22. Spark Plug Replacement 1962-1963 Fairlane with 221 and 260 C.I.D. Engines
23. Distributor Testing of Transistor Ignition-427 High Performance and Super Duty Truck Engines-1963
24. Service Replacement Radio Speakers-Ford Cars and Trucks
25. Instrument Panel Gauge Readings-1963 Vehicles with AM-FM Radio
26. Radio Control Breakage-Tone, Volume, On-Off Switches-1963 Vehicles
27. Loose Tachometer Head-1963 Falcon Sprint
28. Tachometer Installation on Standard Ignition Engines
29. Tachometer Application to Transistorized Ignition System
30. Turn Signal Switch Not Cancelling-1963 Ford with Automatic Transmission
31. Seat Belts (Metal to Metal Type)-Proper Threading-1963 All Car Lines
32. Fuel Line Vibration (Fuel Pump to Carburetor) 1963-221, 260 and 289C.I.D. Engines
33. Improved Automatic Choke Operation and Fuel Economy on Short TripStop and Go Type Driving-221, 260, 352, 390C.I.D. Engines

Volume 1, Number 3

1. 1964 Series 500-800 Truck Specifications
2. 1964 Series 850- 1 100 Truck Specifications
3. Using Tach-Dwell Meters with Ford Transistorized Ignition
4. Loose Window Regulator Knobs - 1963 Ford Cars
5. Thunderbird Wire Wheel Installation on Other Than Thunderbirds Not Recommended
6. Dashpot Adjustment - 1963 Ford Single Barrel 144, 170 and 223 C.I.D. 6-Cylinder Engines
7. New Accelerator Pump Cavity Filler - 1958 1963 8-Cylinder Car and Truck Ford Carburetors
8. Inoperative Headlamps - 1963 Falcons
9. Kinked Heater Hose - All Car Lines
10. New Piston Pin and Retainer - 1963 (223-262 C.I.D.) 6-Cylinder and (292 C.I.D.) 8-Cylinder Car and Truck Engines
11. Ignition Switch Bezel - All 1963 Car Lines
12. Spongy Brake Pedal Feel - 1964 Ford (Without Power Brakes)

13. Interior Paint Repairs - All Car Lines
14. Reset Type Cigar Lighter Circuit Breaker – All 1963-64 Car Lines
15. Damage to Transistor Radios - All Car Lines
16. Cooling System Fluid Level - All 1964 Car Lines
17. Turn Signal Lever Removal - All Car Lines
18. Oil Filter Installation - All Car Lines
19. Cylinder Head Gasket Replacement - All 1963 Ford Car & Truck Engines
20. Collapsed Air Cleaner Cover - 1963 Ford 6-Cylinder

Volume 2, Number 1

1. Heater Core-1962-63 Fairlane, 221, 260 and 289 C.I.D. Engines
2. Improper Servicing of Distributor to Spark Plug Wires
3. Service Opportunities with the Positive Crankcase Ventilation System
4. Composite-Design Front Brake Drums-1963 F-250-350 Series Trucks
5. Water Contamination of Front Wheel Bearings-1960-63 Falcon
6. Rough Engine Idle-1963 Thunderbird 6 -Venturi Carburetor
7. Revised Main Metering Jet Specifications- 1960-63 352 C.I.D. Engine with Two-Barrel Carburetor
8. Cold Engine Hard Starting-Choke Cable Interference-All 1963 Vehicles with Six Cylinder Engines and Manual Choke
9. Steering Gear Housing Bushings and Bearings-All Car Lines
10. New Camshaft Thrust Button 352, 390 and 406 C.I.D. Eight Cylinder Car Engines
11. New Connecting Rod-1963 170 C.I.D. Falcon and Fairlane Engines
12. New Valve Stem Seals-1960-63 144 and 170 C.I.D. Falcon, Fairlane and Econoline Engines
13. New Cylinder Head Gaskets-1954-63, 239, 256, 272, 292 and 312 C.I.D. Passenger Car and
14. Truck Engines
15. Correct Application of Engine Temperature Indicator Bulb and Coolant Thermostat-1960-62 Passenger Car Engines
16. Intake Manifold to Cylinder Block Seal-332, 352, 390 and 406 C.I.D. Engines
17. Cylinder Block Replacement-1958-62 352, 390 and 406 C.I.D. Eight Cylinder Engines
18. Flexible Fuel Hose Premature Wear and Fuel Starvation-1963 Fairlane and Falcon
19. Steering Gear Shaft and Column Alignment-1961-63 Econoline Trucks and 1962-63 Falcon Bus
20. Air Brake Slack Adjuster Lubrication-1963 Ford Trucks
21. Engine Rear Support Leaf Spring Noise-1963 Falcon V-8 with Four-Speed Transmission
22. Steering Stop Metallic Rattle or Crunch Noise-1963-64 All Car Lines
23. Rear Engine Support Bracket-1962-63 Fairlane
24. Radio Antenna Mounting Location-1963-64 Fairlane
25. Vacuum Brake Booster Air Cleaner Maintenance-C Series Trucks
26. Improved Gears for Four Speed Transmissions 1963 Ford 390 High Performance, 406 and 427 Engines
27. Instrument Panel Light Fuses-1963 Falcon, Fairlane, Ford and Econolines

Volume 2, Number 2

1. New "Cobra Kits"-for 221, 260 and 289 C.I.D. Engines
2. New Ford 4V 289 C.I.D. High Performance V-8 Engine-Specifications, Settings and Service Parts List
3. Quick Service-Engine Diagnosis
4. Transistor Ignition System Operation and Testing
5. Erratic or Inoperative Electric Windshield Wipers-1963 Falcon
6. Engine Noises in Passenger Compartment 1960-63 Ford with 8 Cylinder Engine and Automatic Transmission
7. Fuel Gauge Reading Full at All Times-1963 Fairlane Station Wagon
8. Water Pump Failure-1963 Ford and Thunderbird with 352 and 390 C.I.D. Engines
9. Off Idle Engine Knock-1963-64 352 and 390 C.I.D. Engines
10. Accelerator Linkage-Damage When Raising or Jacking Up
11. Engine-1963 Falcon with Eight Cylinder Engine
12. Rear Axle Noise-1962-63 Fairlane, All Models
13. New Carburetor Spacer and Gasket Assembly-1964 352-4V and 390-4V C.I.D. Engines
14. Alleged Speedometer Noise-1963 Ford
15. Intermittent Parking Lamp Operation-Poor Ground-1964 Fairlane-All Models
16. Sealer For Vinyl Tops
17. Brake Pedal Height-1963 F-100-250 Trucks
18. Turn Signals Not Cancelling and/or High Operating Efforts-All 1963 and 1964 Vehicles
19. Brake Pedal Bind and/or Hang-Up-1963 Ford Without Power Brakes
20. Brake Line Looseness or Rattle-Rear Axle Housing Area-1963
21. Ford 6 & 8 Cylinder and Falcon 8 Cylinder
22. Steering Gear Housing Replacement-Sector Shaft Bushing
23. Failure-1961-63 Thunderbird Steering Gears
24. Body and Collision Parts Catalog

Volume 2, Number 3

1. Parts Identification-All Car and Truck Lines
2. Brake Pedal Interference with Low and Reverse Gear Shift Lever-1961-64 Econoline Trucks, Falcon Bus and Club Wagons
3. High Oil Consumption-All 1962-64 Passenger Car Engines
4. Ignition Switch Diagnosis-All 1963-64 Car Lines
5. Auxiliary Leaf Springs-Econoline and F-100 Trucks
6. Uneven Rear Wheel Brake Lining Wear 1962-63 Thunderbird
7. Speedometer Cable Pumping Transmission Lubricant Into Instrument Panel-All 1962-64 Car Lines (Except Thunderbird)
8. Premature Front Wheel Bearing Failure-All Medium, Heavy and Extra Heavy Duty Trucks
9. New Parking Brake Handle-1961-64 Econoline, Falcon Station Bus and Club Wagons

10. Shift Lever and Socket Wear and Breakage-1961-63 F 100-250 Trucks with Three-Speed Standard Transmission
11. Inoperative Horn Resulting From The Steering Column Slipping Down 1962-63 F 100-250 Trucks
12. Gasoline Leakage Into Vehicle from Fuel Filler Pipe Attachment-1963 Fairlane Wagon
13. Poor Cold Engine Starting-260 and 289 C.I.D. 2V Engines-1964
14. Miniature Bulbs and Turn Signal Flasher Usage-1963-64 All Vehicles
15. Loose Gas Tank Caps-Fuel Spillage 1964 Thunderbird-All Models
16. Get In On Ford's Big Spring Deal On Genuine FoMoCo Distributor Point Sets
17. Another Handy Reference Guide from Ford

Volume 2, Number 4

1. 1965 Ford Mustang Specifications
2. Inside The Mustang-Engines-Transmissions and Clutches 4
3. Inside The Mustang-Driveshaft, Axle and Exhaust System-Steering and Suspension
4. Inside The Mustang-Brakes, Wheels and Tires-Soft Trim and Interior Hardware
